REMARKS This is UNEVALUATED Information

25X1

1. The barracks installations located southeast of Banská Stianica (Q 49/C 53), on the highway to Sv. Antol (Q 49/C 52), were not occupied prior to mid-December 1950. However, they were being maintained so that they can be used at any time.

2. A second track was built on the Banská Stianica-Dubrava (Q 49/C 64) railroad line in 1950 and opened in October 1950. *

* Comment. So far this line has been a narrow-gauge branch line. It therefore appears doubtful that it should have been made a double-track line. On the other hand, it is possible that it has been converted into a standard-gauge track.
